826	28 December	729-768

new scientist

Index Volume 56

5 October—28 December 1972

Editorial Offices:
128 Long Acre, London, WC2E 9QH

U. OF ILL. LIBRARY
JUN 25 1973
CHICAGO CIRCLE

SUBJECT INDEX

Actane process against damp 40
Adamson, C., profile of 460
Advertising display for train tunnels 576
AEROS, West German research satellite 685
Agricultural research in Britain 347
Air conditioning 349
Aircraft, European airbus, A300B-1 269
  for French carriers 660
  measurement of noise levels 57
  nicad batteries in 90
  supersonic, long range 392
  tyre and brake testing 703
Aircraft Disturbance Action Group, Haslemere 660
Aircraft industry, early pioneers in 588
Aircraft noise, measurement of 660
  tests for 753
Aircraft runway, ice detection equipment 703
Alcohol poisoning, use of fructose for 256, 477
Alkali Inspectorate, annual report 435
Alloys, superplastic 527
Althesin steroid anaesthetic 333
American Chemical Society, presidential election 348
Anaesthetic, steroid, Althesin 333
Anfinsen, C. Nobel Prize for chemistry 213
Angling classes, Stanford University 299
Anglo-German-Dutch gas centrifuge project 12
Anik, Canadian domestic communications satellite 511, 741
Animal tissue, freezing of 318
Animals, stuffed, sale of 164
Annan, Lord, lecture on universities 316
Antarctic, Dry Valley Drilling Project 320
Antarctic continent, radar map of 440
Antarctica, proposed world park 728
Antibiotics for babies, threat of immunotoxicity 320
Anti-tank missiles, Soviet, use in Ulster 576
Apollo-14, unofficial ESP tests from 161
Apollo-17 space rocket, geological data from 646
  geologist on 558
  launching of 644
  radar experiments on lunar sub-surface 576
Araks space project, Franco-Soviet 406
Archaeologists, code of principles for 753
Archaeology, computer record in Essex 590
  government allocation for 288
Ariadne, record of 1972 757
Arms control in oceans 252
Arrow, K. Nobel prize for economic science 286
Artichokes, taste modifications of 623
Artificial limbs, hydraulic shoe power for 87
Asher, R., tribute to 226
Aston University, Project 71, creative ideas exploitation 33
Astronomers, light pollution threat to 344
Astronomy, infrared, new telescope for 561
Astrophysical journal, London printing of 293
Atlantic Ocean, Eastern, survey of 254
Atmospheric dust, measurement and movement of 622
Atoms, single, electron microscopy 9
  superheavy, synthesis of 7
Australopithecus early man, East African discoveries 385
Azov Sea, dam construction for 149
Babies, antibiotic administration, immunotoxicity threat 320
  cross-modal ability of 559
  of smokers, study of 732
  overfeeding of 558, 594
Bacteria, 'memory' in 255
Bacteriogenic sulphur, production of 7
Bad news, last word on 752
Badgers 288
Ball lightning, enigma of 632, 764
Banknotes, optical film coating for 639
  stereoscopic watermarks 458
Bardeen, J. Nobel Prize for physics 212
Bassey, M., simulation of future world problems 470
Bassir, Olumbe, profile of 17
Bath University of Technology, SWIRL, R & D Company 464
Batteries, nicad, in aircraft 90
Berths, floating for large ships 457
Bilingualism, study on 560
Bio-climate map of Germany 660
Biology, developmental, Harden conference 36
Birds, Italian slaughter of 289
BL Lac galaxy, observation of 441
Black, D. Chief Scientist to Department of Health and Social Security 40
Black holes in galaxy, theory of refuse disposal 493
Blind persons, optic nerve stimulation 392
  relief maps for 161
Blindness, colour, correction by mosaic lenses 705
Blood flow rate, measurement of 705
Body heat distribution, computer maps of 703
Bombs, smart, IBM 454
Books, polyethylene coated pages for 458
Boots, tungsten carbide studs for 747
Brain, capacity for multiple attentiveness 340, 477
  direct signals to, in blind and deaf 392
  wiring up mechanism of 92
Brazil, destruction of rain forests 540
Brewing industry 348
Brick industry, British 593, 765
British computer industry, government help for 753
British Computer Society, financial report on 89
British Library, computers in 88, 303
British Rail, automatic public address system 88
  reduction of smoking accommodation 752
Building safety codes and gas explosions 158
Bulls, testosterone hormone in, waste of 315
Burbidge, G., at La Jolla, California 523
Cables, undersea, charts of 23
Caffeine, effect on blood alcohol levels 686
California legislature, initiative process 394
Cambridge Recruitment Consultants 120
Canals, planning and construction of 282
Cancer, lung, effects of post-operative infection 493
Cancer cells, 'photodynamic' therapy against 559
Cancer research, Zuckerman report on 251, 478
Cancer surgery, lymphocytes immunocompetence after 135
Car exhaust systems, lead trap silencers for 335
Car headlamps, computers in design of 270
Car radios, automatic volume control 457
Car seat belts, safety of 76
Car windscreens, laminated, European call for 86, 162
Carbon monoxide, effect on birth weight of babies 624
  in galaxy M33 71
  seasonal fluctuations in 625
Cardiac pacemakers, nuclear 642
Carpet manufacture 225
Carpets, static footprints in 86
Cars, energy consumption of 372, 605
  environmental problems, European Committee for 491
  passive restraint safety systems in 74
  theomorphic, last word on 591
  wheel-tyre systems for 455
Cash registers, electronic 273
Cavitation research centre, India 89
Celon Anti-stat modified nylon yarn 271
Census, privacy of, concern over 655
Centec, centrifuge study association 576
Challenger expedition 706
Changemakers, last word on 407
Channel bridge proposals 269, 421
Channel Tunnel 269
  parliamentary interest in 592
  problems of 20
  wagons for 577
Cheating 120
Chedd, G., joins US Communications Programs for the Public Understanding of Science 406
Cheesemaking, pepsin in 271, 605
Chemical defence 162
Chemical reactions, Woodward-Hoffmann rules 266
Chemical syntheses, effect of gamma-rays 438
Chemical warfare preparation in US 501
Chess, potential of computers in 120
Children, gifted, problems of 753
  suicide of, report 339
China, centipedes in 488
  technological development in 42
Chinese Mechanical Engineering Society, delegation in Britain 408
Chinese science delegation, British visit 224
Christian churches, unification of 755
Chromosomes, function of histones in 378
Circadian rhythm, effect of energy metabolism 439
Click beetles, jumping mechanism of 53
Clouds, artificial 376
Coanda, Henri, death of 590
Coating, metal, for timber and concrete 577
Cod war, assessment of arguments in 628
Coffee, effect on coronary artery disease 734
Coherin hormone, discovery of 377
Collieries, tailings, process for 576
Colorado, environmental ban on Winter Olympics 407
Colour blindness, correction by mosaic lenses 705

Commission of the European Communities, symposium on lead and environment 347
Committee of Common Market Constructors, formation of 491
Computer communications, problems of 618, 765
Computer control in TV studios 746
Computer industries, in EEC 284
organisations in 238
Computer language, Coral-66 513
Computer map of body heat distribution 703
Computer programme for multi-step synthesis 734
Computer programming aid, PM3, government investment in 510
Computer record of archaeological sites in Essex 590
Computer software, patents for 510
Computers, and the law, Danish mock trial 649
chess programs 120
dye-matching in wool industry 210
in British Library 88, 303
in car headlamp design 270
in currency exchange 235
in offices, Department of Employment study 620
in United States Presidential election campaigns 224
police use in US 57
Post Office 303, 541
Conservative party conference, report on 164
Cooper, L. Nobel Prize for physics 212
Coral 66, language for minicomputers 513
Coronary artery disease, effect of coffee 734
Coronary heart disease, prevention by diet 190
Corrosion, of sea relics, preventive treatment 575
vehicle, prevention of 334
Cost-effectiveness of industrial safety 620, 638
Counter-inflationary measures, aftermath of 655
Crab nebula, historical records of 377
radio sources near 492
Creative ideas exploitation, Project-71 33
Credit cards, hologram for fraud prevention 705
report on 206
Crookes and spirit world 722
Crystals, liquid, properties and uses of 651
Cutaneous perception, experiments in 190
Cygnus X-3, radio emissions from 200
Czechoslovakia, purge of scientists in 40
Daedalus Research Evaluation and Development Corporation. See DREADCO
Dairy food industry 106
Dam construction for Azov Sea 149
Damp, Actane process against 40
Dangerous food, last word on 661
Deaf persons, audio signals to brain 392
de Bono, Edward, originator of thinking course for schools 111
Deep Sea Drilling Project (DSDP) 494
Defence, Ministry of, lack of democracy in 655
Defoliant 2,4,5-T, toxic effects of 106
Degrees, sale of 592
Dental care, B.D.A. report on 656
Dental fillings, new material for 511
Department of Education and Science, Laboratories Investigation Unit 214
Department of Trade and Industry, new leaders of 467
Developing nations, technological help for 132
Devonport dockyard, nuclear submarines in 289
Diamonds, synthetic, in cutting tools 208
Dichlorvos in flystrips, hazards of 683
Diet, coronary heart disease prevention by 190
Diethyl stilboestrol (DES) in cattle, ban in US 315, 541
DNA replication, double helix experiments 137
Docksey report 730, 746
Doctors, survey of 616
Double helix 137
Dragon, international reactor project, extension of 702
DREADCO, activities of 693
Drinks, congener constituents in, effects on hangovers 70
Drives, gear, right angled 211
Driving, effect of tranquilisers 622
Drugs, cultivated, biological control 120, 237
in schools 131
Drummond-Jackson v. British Medical Association and others, report of trial 403
Dry Valley Drilling Project 320
Duels, last word on 223
Dust, atmospheric, measurement and movement of 622
Dust extraction on agricultural premises 288
Dye-matching, computer, in wool industry 210
Earth, noise generation of 192
rotation rate, historical data 136
Earth research satellites, UN working group 408
Earth station, for use in disaster areas 390
Earthquake areas, small buildings in 751
Earthquake research, competition in US 737
Earthquakes, prediction of 192
safety of buildings in 735
Earth's mantle, lateral inhomogeneities 70
Economics, symbolic logic in 286
Edelman, G. Nobel prize for antibody structure 142
Education, and genetics 96, 168, 174, 236, 478
higher, polytechnic expansion 490
rationalisation of 4
in Russia, practical training 469
International Commission on Development of 66
White Paper on 619
Educational technology, promotion of 592
Elderly persons, hypothermia in 711
Electric motor, linear 513
synchronous 335
Electricity generating capacity, Commons debate over 713
Electricity supply industry in France 527
Electrodes, ion-selective, industrial uses of 288
Electronic cash registers 273
Electronic postal equipment 575
Elements, radioactive, synthesis of 684
Energy crisis, world, possibilities of 753
Energy policy in Britain 682
Engineering and science council in US 287
Engines, rotary, report on 579
Environment, magazine 661
UN Voluntary Fund for 105
union concern over, in Australia 616
Environmental pollution of motorways 165
Environmental protection, joint Russian-US programme 24
Enzymes, catalytic functions of 213
membrane-bound, study of 320
Epidemiology in housing 711
ESRO IV satellite, launching of 495
Essex, computer record of archaeological sites 590
Establishment Yoga, last word on 523
Estuary pollution, problems of control 570
Eukaryotes, calculation of age 257
Eukaryotes growth, temperature limits for 137
Europe, in US space programme, prospects 68
European airbus A300B-1 269
European Economic Community, computer industries in 284
legislation scrutiny 105
European Patent Office, proposed establishment of 421
European Security Conference, preliminary meeting of 409
European space programme, integration concept 371
Exhaust pollution, US research into 641
Explosions, gas, and building safety codes 158
Facsimile transmission, on domestic TV 271
Facsimile transmission industry, report on 218
Fahrenheit-451, film 57
Fairchild US company, survey of semi-conductor industry 455
Family size in Russia 590
Farm waste, use as feedstuff 456
Fibres, optical, report on 748
Films, cinema, colour process for 458
Fahrenheit-451 57
reviews of 476
Flystrips, hazards of 683
Foetal heartbeart, early ultrasonic detection of 492
Foetus, protection against intra-uterine malnutrition 492
Fog, interstellar, variations in 137
on motorways 149
stabilisation of 89
Food, dangerous, last word on 661
stored, historical pest infestation 8
Food preferences and conservatism 668
Food production, tissue culture in 269
Foot and mouth disease in humans 173
Footways in Scotland 46
Fossil stromatolites, tidal data of 439
Foster grandparents programme 468
Fowden, L., director, Rothamsted Experimental Station 110
France, aircraft for carriers 660
elections in, effects on Westinghouse company 132
electricity production in 527
expenditure on nuclear arms 526
Gaullist influence on scientists 160
general election, science issue in 344
nuclear test programme 655
population study 712
proposed Snecma link with General Electric 526
public opinion polls in 117
study of suicides in 755
tobacco monopoly in 108
Francis, Dr. John, profile of 153
Franco-Russian technical co-operation prospects 755
Franco-Soviet Araks project 406
Fructose, use for alcohol poisoning 256
Funerals, last word on 111
Fusion research in Britain, future of 66
Galactic nuclei, element synthesis in 684
Galaxy(ies), BL Lac, observation of 441
infrared emissions from 319
lack of interaction between 135
M33, carbon monoxide in 71
spiral structure of 688
II Zw 40, radio observation of 6
Gall-stones, non surgical treatment for 738
Gamma rays, effect on chemical syntheses 438
Gas centrifuge, Anglo-German-Dutch project 12
study association for 576
Gas explosions and building safety codes 158, 358
Gas turbine, stag unit in Russia 208
Gear drives, right angled 211
General Electric, proposed link with Snecma 526
General Medical Council, disciplinary powers of 349
doctors' hostility to 595
Generating stations, tidal power 119
Generators, superconducting 163
Science Research Council, report on 453
Westinghouse Corporation 332
ultrasonic, continuously variable 747
Genetics and education 96, 174, 236
Genital mycoplasmas, study of 193
Geodesy, uses of VLBI in 318
Geothermal energy 117
German Democratic Republic, waste disposal 24
Germany, bio-climate map of 660
Gestation, length of, relation to body weight 319
Ghosts, theories on 728
Glaciers, cyclical movement in 494
Glasgow, report of Mass Radiography Unit 407
GNP and social index 3
Goldfish, audibility threshold of 135
Gonorrhoea, vaccine against, research 70, 478
Gouriet, G. Royal Institution Christmas Lectures 743
Gout, make susceptibility to 688
Government reports, publication of 730
Government secrecy 117
dangers of 188
Graham, Revd. Dr Billy, science adviser to US President 656
Gravel resources, concern over 640
Gravity, repulsive component in 191
Hadron composition, experiments to determine 495
Haemoglobin, structure of 376
Hair, human, lead in 134
Handprints, measurement of 207
Hangovers, effects of congener constituents in drinks 70
Haslemere Aircraft Disturbance Action Group 660
Haymaking, machinery for 209
Health care in Britain, weaknesses of 658
Heat pipes, industrial applications of 640
Helices, biological, sense of twist in 560
Helium, forecast of exhaustion of 496
Helium balance mechanism 686
Hemp, biological control 120
Herbicide 2,4,5-T, toxic effects 56
Heredity in human behaviour 300
Histones, function in chromosomes 378
phosphorylation of, circadian rhythms in 561
Hollomon, J.H., views on productivity 751
Hounsfield, G., winner of MacRobert Award 523
Housing, epidemiology in 711
Hudson, Professor Liam, profile of 274
Human motor disorders, ultrasound measurement of 334
Humour, official 552
Hydrogen economy in US pollution 410
Hynek, J. Allen, book, The UFO Experience 293
Hypnotic relief of pain 585, 765
Hypothalamic hormone thyrotrophin releasing factor (TRF) as antidepressant 375
Hypothermia in elderly persons 711
IBM, anti-trust suit against, in United States 207
new corporate policy of 20
smart bombs 454
IC443 supernova remnant, new pulsar in 134
Ice-breaking vessels with helicoidal screws 458

Ice detection on runways 703
Icelert for ice detection on runways 703
Imagery as memory aid 32
Imperial Chemical Industries, Billingham works, smell from 235
paintmaking plant, Stowmarket 208
paraquat herbicide, patent legislation 329
Incendiary weapons 187
India, car manufacture in 488
cavitation research centre 89
Indian Ocean, Deep Sea Drilling Project, information from 494
Industrial personnel selection 120
Industrial safety, cost-effectiveness of 620, 638
Industrial training boards 225
Influenza vaccine, live, clinical trials 630
report on 382
Information, optical systems in, future development of 144
Infrared astronomy, new telescope for 561
Insects, stridulating, songs of 191
International Commission on Development of Education 66
International Congress of Zoology, Monaco meeting of 80
International Institute of Applied Systems Analysis 160
International Laws of the Sea Conference, British representation at 525
Interplanetary communication, last word on 293
Interstellar cloud formation, infrared observations of 558
Interstellar fog, variations in 137
Intestinal bacteria, study of 506
Intimate taxation, last word on 161
Io, Jupiter's satellite, study of 321
Ion-selective electrodes, industrial uses of 288
IQ, factors determining, debate on 374
Ireland, National Science Council 468
Iron oxide, magnetic effect of hydrogen 376
Israel, exploitation of water resources 322
Italy, bird slaughter in 289, 478
Jewish scientists, Soviet persecution of 751
Jewkes, J., high technology 702
Jews, Russian, emigration to Israel 302
Jupiter, satellite Io, study of 321
Kangaroo rat, removal of saline layer of saltbush leaves 685
Kesp, meat analogue 21
Kidneys, artificial, problems of use 326
Kuhn, A., exhibition of paintings at Imperial College 292
Laboratories Investigation Unit, Department of Education and Science 214
Labour party conference 107
Lake Rudolph, discoveries at 715
Laser measurement of nitric oxide pollution 641
Laser radiation, protection against 336
Lasers, in measurement of light speed 376
photoelectric sensor, control of 211
Lawns, care of 44
Lead, in human hair 134
in soil, plant absorption of 71
Lead trap silencers for car exhausts 335
Leakey, R. Lake Rudolph 715
Legal problems of maritime observatories 292
Levich, B., harrassment by Soviet authorities 522
Lewis, R., editor of Bulletin of the Atomic Scientists 463
Library, British, computers in 88, 303
Light, speed of, measurement with lasers 376
Lightning, ball, enigma of 632, 764
Limbs, artificial, hydraulic shoe power for 87
Linear motor, development of 513
Liquid crystals, in temperature measurement;correction 303
properties and uses of 651
Liquids, structure of, research into 399
Liverpool, proposed pollution-free industrial estate 390
Lobsters, growth rate in captivity 7
Longford report on pornography 173
Lorries, European, in Britain 287
plastic load cover 211
Los Alamos meson factory creation of new thorium isotope 623
Lunar breccias, study of 374
Lunar highlands, rocks from 560
Lunar poetry, last word on 464
Lunar roving vehicles 235
Lunar sub-surface, Apollo 17 investigation 576
Lunar winds, model for 560
Lung cancer. See Cancer
Lymphocytes, immunocompetence after cancer surgery 135
M33 galaxy, carbon monoxide in 71
Magnetic mirrors, hot plasma containment 559
Magnetic sensors for metal detection 333
Man, early, Australopithecus, East African discoveries 385
Manchester University, radio telescope 712
Manganese nodules, cosmic materials in 71
Mankind, intellectual stagnation of 682
Maps, from radio telescope 190
relief, for blind persons 161
Marchuk, Frank, atomic computer 680
Marijuana, legalisation plea in US 616
Marine animals, military uses of 344
Marine organisms, power stations cooling systems fouling by 40
Marine pharmaceuticals, pollution threat to 564
Marine wildlife conservation, problems of 507, 667
Maritime museums, conference on 160
Maritime observatories, legal problems of 292
Mastic, danger on motorway surfaces 389
McGovern, G., technology proposals for US 292
Meat analogue, Kesp 21
Medical engineering, report on 657
Medical patents in Australia 490
Membranes, electrical properties of 733
Memory, imagery aid to 32
Mergers, parliamentary debate on 525
Meson factory, Los Alamos, creation of new thorium isotope 623
Metal coating for timber and concrete 577
Metal ketenides, Reading University 696
Meteorites, abiotic polynucleotides in 374
Meters, domestic, theft prevention 24
Meyjes, Sir Richard, study of government organisation 525
Mice, vertical motion of 732
Micropublishing industry, report on 469, 668
Military Balance, report on 42
Military establishments, use for civilian projects 713
Milky Way, synthesis of radioactive elements 684
Minamata, film 763
Minicomputers, Coral 66, language for 513
Mining and environment, Zuckerman report 236, 357
Mining exploration in Snowdonia 491
Mink, effect of street lighting on 561
Miranda, trawler support ship, research of 257
Monaural reproduction 667
Monkeys, food-sharing 134
Monod, Jacques, director, Pasteur Institute 110, 568
Moon, cables to 723
exploration of, geological data from 646
magnetised rocks from 134
origin of, theory of accretion 10
theory of capture by Earth 10
see also Lunar
Moore, S. Nobel Prize for chemistry 213
Mosquitoes, sterile male control technique 704
Mother Christmas, last word on 712
Motor-cars. See Cars
Motor Show, 1972 165
Motorways, environmental disturbances of 187
environmental pollution of 165
fog on 149
surface of, mastic danger on 389, 668
Multinational companies, European based 713
Muonium atoms, measurement of energy levels 72
Muscles, smooth, myosin arrangement in 72
Museums, maritime, conference on 160
Music, emotional effects of 108, 236, 358, 478, 603
Music reproduction, stereo or mono? 667, 722, 765
Musical pitch, reproduction device for 458
Mycoplasmas, genital, study of 193
NASA, future programme of 593
National Reference Library of Science and Invention, services of 211
Nature Conservancy 347
Nerve cell research, slime moulds in 191
Nerve cells, protein synthesis in 9
Nerve tissue in culture, observations of 7
Neural pattern generation, study of 441
Neurones, non-functioning in rats 494
Neutrino emission from Sun 8, 562
Neutron diffraction to determine ribosome structure 136
Newspapers, television transmissions of 23
uses for 552
Nicad batteries in aircraft 90
Nitric oxide pollution,laser measurement of 641
Nitrogen fixation, genetic experiments 254
Nixon, Richard, attitude to hecklers 290
Noise, aircraft, measurement of 660
tests for 753
Noise control in industry 22
North Sea, oil pipelines laying difficulties 458
oil projects, ecological dangers of 380
toxic substances in 288
Norway, North Sea fishing 105
Novel Protein Intelligence Unit, establishment of 208
Nuclear explosions in silver mining 732
Nuclear materials, transport of 592
Nuclear pacemaker 642
Nuclear power, public reaction against, in US 450, 605
Nuclear power station, effects on marine life 703
off-shore, safety problems 704
Nuclear reactor, breeder programme 710
Dragon project 702
natural, 1700 million years ago 6; correction 303
Precambrian 342
uranium fuel for 12
Nuclear test programme, France 655
Nuclear tests, underground, French 107
Nylon yarn, Celon anti-stat 271
Obesity, genetic factors in 440
research into calorie consumption 495
Ocean floor, waste disposal on 117
Oceans, arms control in 252
Office of Technology Assessment in US 287
Oil drilling, North Sea, ecological dangers of 380
Oil pipelines, North Sea laying difficulties 454
Oil refineries, sulphur dioxide emissions 21
Oil slicks, sea, "chemical fence" for 336
Ontario Institute of Education, bilingualism 560
Open heart surgery, psychosis following 734
Opium poppies, biological control 120
Optical components, automatic inspection of 391
Optical fibres, report on 748
Optical systems in information, future development of 144
Osmond report 731
Oxford City Council, proposed building on flood plain 711
Oxygen, cheaper production research 44
Ozone, artificial generation, hazards of 146, 300, 605; correction 303
Pacemaker, nuclear 642
Pain, hypnotic relief of 585, 765
Paint curing, modern techniques in 390
Paint sound-proofing for vibration noise 509
Parapsychology, New Scientist inquiry into 435, 764
New Scientist questionnaire 465, 603
Paraquat herbicide, patent legislation 329
Parliament, television in 222
Parrots, psittacosis in 174
Parsons C.A. & Co., industrial dispute at 292
Pasteur Institute, formation of commercial company 568
Patent agency, profession of 478
Patents, European system for 753
medical, in Australia 490
Pepsin, use in cheesemaking 271, 605
Pereira, H.C., chief scientist, Ministry of Agriculture 223
profile of 504
Personnel selection, Industrial 120
Pest infestation, historical, in stored food 8
Petrol injection, developments in 393
Pets, neurotic 552
Pharmaceuticals, marine, pollution threat to 564
Physicists and society 222
Pigeons, homing ability 193
Piglets, antibody uptake in 625
Pioneer 10, spacecraft, data from 438
Pipelines, oil, North Sea 454
Pipes, domestic, protection against bursts 458
Pittsburgh Skybus, legal ban on construction 640
Planets, civilisation on, symposium on 680
Plant abscission, senescence factor in 493
Plant absorption of soil lead 71
Plants, translocation 101, 623
Plasma, hot, containment with magnetic mirrors 559
thermonuclear, problems of temperature 514
Plasma chemistry, report on 446
Plastic bags, photo-degradable 41
Plastics, degradable 150
PM3 computer programming aid, government investment in 510

Pneumonia, bacterial, immunological approach to 29
Pollution, environmental, of motorways 165
estuary, problems of control 570
exhaust, US research into 641
future parliamentary debates on 162
hydrogen economy in US 410
nitric oxide, laser measurement of 641
of River Rhine 194, 591
campaign against 45
International Commission 555
water, control by pricing 408
in US, improvement programme 87
microorganic purification of 392
Pollution data, secrecy over 435
Pollution threat to marine pharmaceuticals 564
Poly(A) synthesis, effect of fertilisation 623
Polymorphic batesian mimics, gene linkage 321
Polynucleotides, abiotic, in meteorites 374
Polytechnics, expansion of 490
Polythene film, garden uses of 411
Pop music, amplification of, threat to hearing 463
Poppy Day, observations on 412, 540
Population study in France 712
Pornography, Longford report on 173
matter of opinion 53, 118, 175, 237
Poromerics, report on 754
Porter, R. Nobel prize for antibody structure 142
Positronium, energy levels in, measurement 193
Post Office, computer 303
Postal equipment, electronic 575
Potatoes, blighted, spina bifida effect from 277, 602, 765
Power stations, cooling systems, fouling by marine organisms 40
Prehistory, science in 636
Probability theory, deviations from 236
Process industries, European, plant movement 210
Productivity, J.H. Hollomon on 751
Profanity, last word on 41
Project 71, creative ideas exploitation 33
Propellant charges in strip form 705
Prostaglandin molecule, antagonists of, experiments 6
Prostaglandins, uses and problems of 73
Protein synthesis in nerve cells 9
Psychiatry, abuses in Russia 258, 357, 419, 541
Public decency, observations on 526
Public opinion polls in France 117
Pulmonary embolism, prevention of 202
Quasar redshifts, discussion of 53, 175, 357, 423
research 8
Radar maps of South America 333
Radio, car, automatic volume control 456
Radio emissions from Cygnus X-3 200
Radio sources near Crab nebula 492
Radio technology, recent developments in 264
Radio telescope, five-kilometre, Cambridge 138
Manchester University 712
maps from 190
Radioactive elements, synthesis of 684
Railways, in Britain, future of 67
need for 556
Rain-making, in Indo-China, lawsuit 110
in Russia 702
Rats, resistance to anticoagulant poisons, report 156
Rayner, Derek, retirement as Chief Executive of Procurement Executive 105
Reading University, metal ketenides 696
Record turntable, tangential arm for 336
Red grouse 57
Reid, R., leaves BBC 522
Relativistic electron beams in thermonuclear research 516
Reproduction, scientific intervention in, ethics of 395
Research, and development, civil, establishment of "requirements boards" 148
Green paper on, implications for scientists 586
cost effectiveness of, application to soil survey 517
publication of, legal implications 403
scientific, in Russia 463
Research programmes, methodology of 561
Research resources, rationalisation of 713
Rhine, river, campaign against pollution 45
pollution of 194, 420, 555, 591
Ribosomes, free, research into 622
Ribosomes structure, determination by neutron diffraction 136
Rio Tinto-Zinc, mining exploration in Snowdonia 491
River flow, measurement of 272
River Rhine, pollution of 194, 420, 591
International Commission for 555
River Thames, flood prevention 721
Rivers, maximum flow prediction 20
RNA replicase, nucleotide sequence of 375
RNA synthesis in cell nucleus 377
RNA tumour virus, evidence for 438
Road accidents, official approach to 410, 478, 541
Roads, deflection measurement of 747
dressing procedures for 150
expenditure on 360
Rocks, breakdown of, effects of organic acids 319
Rodents, heat generation in 136
Roof, plastic folding 24
Rotary engines, report on 579
Royal Institution, Christmas Lectures, G. Gouriet 743
Rubbish disposal in sea 578
Rudolph, Lake, discoveries at 715
Russell's paradox, theory of sets 91
Russia, abuse of psychiatry in 258
Araks project with France 406
cigarette sales in 552
education in, practical training 469
family size in 590
persecution of Jewish scientists in 751
scientific protest in 276
scientific research in 463
Safety, industrial, cost-effectiveness of 620, 638
Safety systems in cars 74
Salmonella typhi strain, Swiss patent for 705
SAS-B, satellite, gamm-ray astronomy experiment 255
Satellite, Anik, for Canadian domestic communications 511
ESRO IV, launching of 495
SAS-B, gamma-ray astronomy experiment 255
Sauve, J. Minister of State for Science and Technology, Canada 591
Schmidt, Dr. Maarten, astronomy group, California Institute of Technology 161
Schmidt telescopes in Southern hemisphere 251
Schmitt, H., geologist with Apollo 17 558
School children, cameras to monitor behaviour 680
Schools, drugs in 131
secondary, technology teaching in 207
Schrieffer, J. Nobel Prize for physics 212
Science, and engineering council in US 287
and Technology, interaction between 731
Select Committee on 222, 618, 730, 746

Scientists, case against distinction 53
future role of 749
in France, Gaullist influence on 160
Jewish, Soviet persecution of 751
mobility of, task force for 406
productivity of, effect of time pressure 733
purge in Czechoslovakia 40
Sco X-1, X-ray star, circularly polarised light source near 624
Scotland, footways in 46
new power station in 42
Scottish highlands, dextral fault in 375
Sea, rubbish disposal in 578
Sea relics, corrosion of, preventive treatment 575
Seabirds, numbers of, effects of human activities 444
Seat belts, safety of 76
Secrecy, in government 117
dangers of 188
Select Committee on Science and Technology 222
Docksey report 730
white paper 618
Semi-conductor industry, survey by Fairchild US 455
Senescence factor in plant abscission 493
Sensors, magnetic metal detection 333
Sets, theory of, resolution of paradox 54
Russell's paradox 91
Sevan, Lake, artificial rain project for 702
Sewage disposal, research into 152
Sewage sludge, use on farm land 408
Ships, ice breaking, helicoidal screws in 458
large, floating berths for 457
naval, waste disposal in 42
Shoe industry in Britain 714
Silver, mining by nuclear explosions 732
Skybus, Pittsburgh, legal ban on construction 640
Sleep, effects of sonic booms 150
Slide projector, commentaries with 511
Slime moulds in nerve cell research 191
Smokers, babies of, study 732
Snecma - GE link proposal 526
Snowdonia, mining exploration by Rio Tinto-Zinc 491
Social Index and GNP 3
Social processes in science 581
Social Science Research Council, annual report 4
Soil, lead in, plant absorption of 71
Soil Association, news sheet new editor 522
Soil survey, research cost-effectiveness 517
Solar power stations 105
Solar system, calculation of past visits to 660
stability of 733
Solar wind, velocity of 441
Sonar system to prevent grounding in surface ships 640
Sonic booms, effect on sleep 150
startle property of 256
South America, radar maps of 333
Soviet Union and United States, cooperation in environmental protection 24
Space programme, United States 555
European participation, prospects 68
Space research, domestic applications 23
Spina bifida, effect of blighted potatoes 277, 419, 602, 666, 765
Spinal abnormalities, telemetry for monitoring of 704
Stag, gas turbine unit in Russia 208
Stanford University, angling classes 299
Steel sheet, continuous annealing 21
Steel swarf, recycling of 454
Stein, W. Nobel Prize for chemistry 213
Stereoscopic vision, evolution of 26
Steroid hormones, action of 441
Stethoscopes, versatility of 715
Stever, G., director US National Science Foundation 223
Stonehenge, lunar calendar theory 254
Strategic Arms Limitation Agreements, assessment of 436
Strickland, D., editor, Soil Association 522, 666
Strigol plant hormone, structure of 624
Stroboscopic harmonics 360
Studs, tungsten carbide, for boots 747
Submarines, nuclear, in Devonport dockyard 289
Suicide of children, report 339
Sulphur, bacteriogenic, production of 7
Sulphur dioxide emissions, oil refineries 21
Sun, low neutrino emissions from 562
neutrino emission from 8
Superconducting generators 163
Superconductivity, BCS theory 212
Supernova explosions, study of 439
Supernova remnant, IC443, new pulsar in 134
Superplastic alloys 527
Swear words, use of 488
Swine vesicular disease, report on 684
SWIRL, R & D Company of Bath University of Technology 464
Symbolic logic in economics 286
Synchronous electric motors, development of 334
Synthesis, multi-step, computer programme for 734
Szilard, Leo, tribute to 280, 357, 420
Tankers, cargo coding system 578
giant, Japanese 87
Tatlin's tower 298; model of 477
Taxation, intimate, last word on 161
Technology, and science, interaction between 731
secrecy in 173
Technology assessment, introduction of 3
Office of, US 84, 162, 287
report on 82
Technology teaching in secondary schools 207
Telemetry for monitoring of spinal abnormalities 704
Telephone authorities, defrauding of 148
Telephone service, international, increased capacity 392
Telephones, automatic dialling equipment for 638
private meters for 226
Telescope, for infrared astronomy 561
Schmidt, in Southern hemisphere 251
'Which?' report on 622
Television, colour, European competition 160
domestic, facsimile transmission on 271
flat screen 335
in Parliament 222
use in printed circuit industry 87
Television receiver, manufacturing industries 120
Television sets, licence evasion 526, 668

Television studios, computerised 746
Television transmission of newspapers 23
Testosterone hormone in bulls, waste of 315
Thames, river, proposed canalisation for flood prevention 442, 721
Thames conservancy, ground water scheme 453
Theomorphic motor-cars, last word on 591
Thermal soak chamber 704
Thermolysin, structure of 624
Thinking, proposed course for schools 111
Tidal data of fossil stromatolites 439
Tidal power generating stations 119, 236, 358
Tissue culture in food production 269
Tissue growth, electrical potentials in 686
Torture, science of 730
Trade and Industry, Department of 467
Trains, underground, communications systems in 510
Trams, re-emergence of 699
Tranquilisers, effects on driving ability 622
Transistors, development of 689
impact on technology 691
Translocation in plants 623
Trawler support ship, Miranda, research of 257
Trees, prevention of fungal decay 24
Trench digger, safety technique for 578
Tungsten carbide studs for boots 747
Tyres, discarded, garden uses 457
UFO's, book on 293
UK4 and 5 satellites, thermal soak chamber 704
Ulcers, stomach, diagnosis of 332
Ultrasonic detection of foetal heartbeat 492
Ultrasonic generator continuously variable 747
Ultrasound measurement of motor disorders 334
Umbrellas, last word on 345
'Undercurrents', underground science magazine 110
Underwater plant, seawater testing 151
